ORANGE ROOM

Orange room studio is where we will teach you the A-B-C of art! Any child can learn to draw and colour through our structured and progressive syllabus. With lots of one to one time with our art instructors, you will surely master the basics tools for self expression.

STUDIO (PRE-REQUISITE CLASS)

BLUE ROOM

Blue room classes are advanced classes for budding artists who have mastered their basic skills. Learn about famous artists, aesthetic concepts while exploring new mediums and techniques. This is where you get to fully express your creative self!

Wat-a-colour

This is the jedi-training before you launch into showing off your skills at Raw Canvas Sessions. Learn about shades and tints, water-control, brushstroke effects and experiment with an array of painting mediums like water-colour, poster-colour and Chinese ink. Painting a postcard or creating batik effects will be nothing more than easy-peasy!

Zoom Zoom Room

Welcome to the Zoom Zoom Room, where you can zoom in and out of renowned galleries like Tate Modern and MOMA, oooh and ahhh at paintings of incredibly talented artists. Fawn over Pablo Picasso's work or have a conversation about Andy Warhol's Black Bean Soup. Every lesson, we return with fresh images and ideas for making our very own Masterpieces.

Raw Canvas

For every child who loves mixing colours and creating pictures, this session will be a dream! This class will offer you the unique experience of creating your own paintings in an open studio setting. Acrylic paints, canvas, brushes and your favourite music included!

Anti-Colouring

This is no ordinary art class and you will never find yourself 'colouring neatly within the lines'. You will be collecting visual images and information, questioning them and making thoughtful observations, exploring ideas for different purposes, then recording from your experience and imagination by SKETCHING!
